Does your program accept international applicants? **Yes**  
Does your program offer research fellowship opportunities? **No**

Additional Information: The University of Minnesota seeks applicants for a one year non-accredited Cardiovascular and Thoracic Transplant fellowship. The program will provide trainees who have completed at least two years of thoracic surgery training an additional year of training specializing in heart and lung transplantation and procurement. The focus of the program will be clinical training, with didactic, research, and teaching components as well. The fellow will be involved with Ex Vivo Heart and Lung Perfusion both on the clinical and research level. Required Qualifications Applicants must be board certified, eligible, or equivalent in general or thoracic surgery and hold or be able to obtain a State of Minnesota Medical License. Prerequisite training Completion of a general surgery residency training program and at least two years of cardiothoracic surgery specific training, or either a joint Surgery/Thoracic residency, or integrated Thoracic Surgery residency. Two years of prior training must have been completed within an ACGME, AOA or RCPSC accredited training program.

## **TRAINING PROGRAM OPPORTUNITIES: Adult Lung Transplantation (adult, surgical)**

### **USA: North Carolina**

**Institution:** Duke University  
Program Director: Mani A Daneshmand  
Address: DUMC 3867  
2301 Erwin Rd  
Durham, NC, 27710  
Phone: 919-681-5925  
Email: [mani.daneshmand@duke.edu](mailto:mani.daneshmand@duke.edu)

Does your program accept international applicants? **Yes**  
Does your program offer research fellowship opportunities? **Yes**

Additional Information: Duke University is a robust academic Heart Center. We perform over 100 Lung transplants, 70 Heart Transplants, 200 Ventricular Assist Devices (including Centrimag, Heartmate II, Heartmate III, Heartware, and Syncardia TAH), and 150 ECMOs a year. Trainees will can participate in 1 or 2 year training programs. They will complete our transplant fellowship with both technical and clinical knowledge to be successful independent surgeons. All trainees finish with more than the necessary number of cases for UNOS Certification in Heart and Lung Transplant as well as JCHO VAD surgeon certification.

## **TRAINING PROGRAM OPPORTUNITIES: Adult Lung Transplantation (adult, surgical)**

### **USA: Virginia**

**Institution:** Inova Fairfax Hospital  
Program Director: Oksana A Shlobin MD  
Address: IHVI  
3300 Gallows Road  
Falls Church, VA 22042  
Phone: (703) 776-3656

Does your program accept international applicants? **No**  
Does your program offer research fellowship opportunities? **Yes**

Additional Information: Inova Fairfax Hospital Advanced Disease and Lung Transplant program is actively recruiting an advanced lung disease and transplant fellow for the 2016-2017 academic year. Based in the Washington DC area, this program encompasses a well-respected lung transplant program, PHA-accredited Comprehensive Care Pulmonary Hypertension Center, and an Interstitial Lung Disease Referral Center. A board certified/board eligible PGY-7 pulmonary/critical care physician will have unique and expert training in a variety of advanced lung diseases including ILD, PAH, CF and COPD. Fellows will receive training in the evaluation and management of advanced lung diseases, lung donors, transplant candidates and lung transplant recipients. The evaluation and management of complex airway issues post-transplantation will also be offered. In addition to clinical responsibilities, there are multiple opportunities for clinical research, as well as teaching of residents and pulmonary/critical care fellows.
