TRAINING PROGRAM OPPORTUNITIES: Pulmonary Hypertension

USA: Massachusetts

Institution: Brigham and Women’s Hospital
Program Director: Barbara Cockrill, MD
Address: Center for Pulmonary Heart Disease
75 Francis Street; PBB Clinics-3
Boston, MA, 2115
Phone: 617-525-9733
Email: abwaxman@partners.org

Does your program accept international applicants? Yes
Does your program offer research fellowship opportunities? Yes

Additional Information: This training program is sponsored by the Center for Pulmonary Heart Disease at the Brigham and Women’s Hospital Heart and Vascular Center. The position offers an intensive clinical experience, including evaluation and management of inpatients and outpatients with pulmonary vascular disease, right heart failure, and end stage heart and lung disease. In addition, applicants are strongly encouraged to participate in a translational or clinical research project. Applications are invited from physicians who have completed an ACGME accredited fellowship in either pulmonary and critical care medicine or cardiovascular medicine. This fellowship is designed to prepare trainees for academic careers with a focus on pulmonary heart and vascular disease. Supervision and teaching is provided by Harvard Medical School faculty from the Divisions of Pulmonary and Critical Care Medicine, and Cardiovascular Medicine from Brigham and Women’s Hospital and Boston Children’s Hospital. The duration of the clinical fellowship is one year with an option of a second year focusing on research. Full funding is available for those fellows wishing to pursue the research year. Program faculty will assist fellows in project support for additional training focused on research and academic career development. Opportunities are available across the spectrum of basic science, translational science, and clinical research in all aspects of pulmonary heart disease. Interested applicants should submit a cover letter explaining their interest and long term plans, their CV, and 3-letters of recommendation. Harvard Medical School and Partners Healthcare / Brigham and Women’s Hospital are equal opportunity, affirmative action employers, and welcomes applications from qualified women and underrepresented, self identified minority candidates.

Does your program accept international applicants? No
Does your program offer research fellowship opportunities? No

Additional Information: Inova Fairfax Hospital Advanced Disease and Lung Transplant program is actively recruiting an advanced lung disease and transplant fellow for the 2016-2017 academic year. Based in the Washington DC area, this program encompasses a well-respected lung transplant program, PHA-accredited Comprehensive Care Pulmonary Hypertension Center, and an Interstitial Lung Disease Referral Center. A board certified/board eligible PGY-7 pulmonary/critical care physician will have unique and expert training in a variety of advanced lung diseases including ILD, PAH, CF and COPD. Fellows will receive training in the evaluation and management of advanced lung diseases, lung donors, transplant candidates and lung transplant recipients. The evaluation and management of complex airway issues post-transplantation will also be offered. In addition to clinical responsibilities, there are multiple opportunities for clinical research, as well as teaching of residents and pulmonary/critical care fellows.
