38TH ANNUAL MEETING AND SCIENTIFIC SESSIONS

INTERNATIONAL SOCIETY FOR HEART AND LUNG TRANSPLANTATION

APRIL 11-14 2018

CONVENING AT THE ACROPOLIS CONGRESS CENTER
NICE, FRANCE
CALL FOR ABSTRACTS

ABSTRACT SUBMISSION SITE: ishlt.org/meetings/abstracts.asp

ABSTRACT SUBMISSION SITE OPENS: August 1, 2017

ABSTRACT SUBMISSION DEADLINE: October 24, 2017, 11:59 PM EDT

ABSTRACT STATUS NOTIFICATION DATE: December 20, 2017

$25. ABSTRACT SUBMISSION FEE
For **Technical Support** of Electronic Abstract Submission,

**CTI MEETING TECHNOLOGIES**
Monday – Friday
7:00 am – 6:00 pm
Central Time (USA)
Phone: 217-398-1792
Email: ishlt@support.ctimeetingtech.com

For **General Guideline** Inquiries Regarding Abstract Submission,

**ISHLT**
Monday – Friday
8:30 am – 4:30 pm
Central Time (USA)
Phone: 972-490-9495
Email: communications@ishlt.org
Web: www.ishlt.org
A MESSAGE FROM
THE 2018 SCIENTIFIC
PROGRAM CHAIR
Dear Colleague:

On behalf of Andrew Fisher, President of the International Society for Heart and Lung Transplantation, the ISHLT Board of Directors and the 2018 Scientific Program Committee, I have the honor of inviting you to attend the Society’s 38th Annual Meeting and Scientific Sessions to be held on April 11-14, 2018 in the lovely city of Nice in Southern France.

For this meeting, we return to The Acropolis Congress Center nestled in the heart of Nice, just 15 minutes from the airport.

We hope to build on the tremendous success of the 2017 Annual Meeting in San Diego, CA, USA, the best attended annual meeting in our Society’s history, by continuing to offer both research presentation sessions and 31 exciting symposia throughout all four days of the Nice Meeting.

The majority of the meeting will be devoted to submitted scientific content. In anticipation of your contribution of high quality, novel scientific work, we plan to schedule a total of 54 oral sessions to showcase work described in the highest scoring submitted abstracts. In addition, mini-oral sessions and general poster sessions are planned to share research with all attendees.

Abstracts will only be accepted online. A link to the abstract submission site is available on the ISHLT website (ishlt.org/meetings/abstracts.asp). The abstract submission deadline is October 24, 2017 at 11:59 PM Eastern Daylight (North America) Time.

We especially encourage the submission of work by your trainees and young investigators, the best of which will continue to be highlighted in the Philip Caves Award competition, the Nursing, Health Science and Allied Health Excellence in Research Award competition, the Early Career Scientist Award in Transplantation competition, the Junior Faculty Clinical Case Dilemmas in Thoracic Transplantation: The Best of the Best Award competition (see details in this brochure), and as featured abstracts and posters.

I look forward to receiving your abstract submissions and welcoming you all to Nice, France, for the 38th ISHLT Annual Meeting and Scientific Sessions!

With best regards,

[Signature]

Christian Benden, MD FCCP
ISHLT 38th Annual Meeting Scientific Program Chair
This is your guide to submitting an abstract for the ISHLT 38th Annual Meeting and Scientific Sessions April 11-14, 2018 in Nice, France.

Please read these instructions prior to beginning the submission process to understand all guidelines and rules applying to abstract submission. Submitters will be able to access complete submission instructions and guidelines, including character, image, table and/or graphic limits, via the online submission site.

ABSTRACT SUBMISSION SITE:
The Abstract Submission System is now live on the ISHLT website (ishlt.org/meetings/abstracts.asp). All abstracts must be submitted online.

ABSTRACT SUBMISSION FEE:
There is a $25.00 non-refundable processing fee for each abstract submission. This modest fee was approved by the ISHLT Board of Directors to avoid an increase in meeting registration fees and to defray annual meeting costs.

SUBMISSION AREAS:
There are 3 areas in which to submit an abstract (scroll down for information and instructions to submit an abstract into any of these areas). Each abstract may only be submitted in ONE of these areas. Please note that there is a separate submission link for each area.

A: General Abstracts

B: Junior Faculty Clinical Case Reports

C: Late Breaking Clinical Science

The Abstract Submission deadline for all areas is October 24, 2017, 11:59 PM EDT.
General Abstracts may be submitted in one of the following categories:

**BASIC SCIENCE AND TRANSLATIONAL RESEARCH (BSTR)**
- Immunology, Inflammation, Immunosuppression
- Models of Organ Preservation, Perfusion and Graft Injury
- Xenotransplantation/Regenerative Medicine/Artificial Organs
- Other

**ECONOMICS, ETHICS, PUBLIC POLICY (EEP)**
- Heart
- Lung
- MCS
- Other

**HEART FAILURE - ADULT (HF)**
- Patient Care Pathways
- Quality of Life
- Therapeutics and Pharmacology
- Other

**HEART TRANSPLANTATION - ADULT (HTX)**
- Acute Rejection
- Clinical Ex-Vivo Heart Perfusion and Preservation
- Coronary Artery Vasculopathy
- Diagnostics/Patient Management
- Donor Management and Organ Allocation
- Immunosuppression, Therapeutics and Pharmacology
- Infectious Diseases
- Primary Graft Dysfunction
- Quality of Life
- Other
GENERAL ABSTRACTS

INFECTIONIOUS DISEASES (ID)
- Heart
- Lung
- MCS
- Pediatrics

LUNG TRANSPLANTATION – ADULT (LTX)
- Acute Rejection
- Candidate Selection for Advanced Therapies
- Chronic Lung Allograft Dysfunction
- Clinical Ex-Vivo Lung Perfusion and Preservation
- Diagnostics/Patient Management
- Donor Management and Organ Allocation
- Immunosuppression, Therapeutics and Pharmacology
- Infectious Diseases
- Lung Failure
- Primary Graft Dysfunction
- Quality of Life
- Other

MECHANICAL CIRCULATORY SUPPORT - ADULT (MCS)
- Complications Bleeding/Thrombosis
- Complications Infection
- Complications Other
- Devices and Engineering
- Patient Selection
- Physiology and Patient Management
- Quality of Life
- Surgical Techniques
- Therapeutics and Pharmacology
- Other

NURSING, HEALTH SCIENCE, ALLIED HEALTH (NHSAH)
- Allied Health
- Nursing
- Quality of Life
- Social Science
- Symptom Management/Self-Care

PATHOLOGY (PATH)
- Heart
- Lung

PEDIATRICS (PEDS)
- Heart Failure
- Heart Transplantation
- Lung
- MCS
PHARMACY AND PHARMACOLOGY (PHARM)
- Heart
- Lung
- MCS

PULMONARY HYPERTENSION (PH)
- Chronic Thromboembolic Pulmonary Hypertension (CTEPH)
- Quality of Life
- Pulmonary Arterial Hypertension
- Pulmonary Hypertension due to Heart or Lung Disease
- Physiology/RV Failure/Complications
- Therapeutics and Pharmacology
- Other

NOTE:
Submission of the same abstract into different categories is not permitted. Submission of one study as several different abstracts is not permitted. If the abstracts in question are not different enough to be considered separate studies, or if the same abstract is submitted into multiple categories, all versions may be rejected.

The content for GENERAL ABSTRACTS should include:

i. Brief statement of purpose of the study (goal or hypothesis being tested)
ii. Statement of methods and procedures used
iii. Summary of results, presented in sufficient detail to support the conclusion
iv. Conclusion

Please use the General Abstracts submission link (found on the main page of the submission site) to submit an abstract in this area.

SUBMIT AN ABSTRACT: ishlt.org/meetings/abstracts.asp
Junior Faculty (defined as an individual whose formal professional training was completed five or less years ago) and trainees are eligible to submit case reports in one of the following categories:

**JUNIOR FACULTY CLINICAL CASE REPORTS (CASE)**

- **CASE** – Heart Failure/Transplantation
- **CASE** – Infectious Diseases
- **CASE** – Lung Failure/Transplantation
- **CASE** – Mechanical Circulatory Support
- **CASE** – Pediatrics
- **CASE** – Pulmonary Hypertension

The best scored case reports will be selected for presentation in the Junior Faculty Clinical Case Dilemmas in Thoracic Transplantation: Best Presentation oral session. Other well-scored reports will be selected for presentation in the Junior Faculty Clinical Case Reports Poster Session.

**NOTE:**

Case reports accepted for **oral** presentation will be published in the *Journal of Heart and Lung Transplantation*.

Case reports accepted for **poster** presentation will **NOT** be published in the *Journal of Heart and Lung Transplantation*.

The content for **JUNIOR FACULTY CLINICAL CASE REPORTS** should include:

i. Introduction  
ii. Case Report  
iii. Summary

Please use the Junior Faculty Clinical Case Report (JFCCR) submission link (found on the main page of the submission site) to submit an abstract in this area.

**SUBMIT AN ABSTRACT:** ishlt.org/meetings/abstracts.asp
The Late Breaking Clinical Science abstract category is intended to facilitate the presentation of high impact multi-center studies or particularly provocative single center investigations. In general, such studies would include prospective, randomized trials that seek to investigate new approaches to the diagnosis and/or treatment of cardiothoracic diseases relevant to the field and that have the potential to alter our contemporary treatment paradigm.

Abstracts presenting an interim analysis of clinical trial data will not be accepted unless the intention to conduct an interim analysis was predetermined in the trial protocol before the study commenced.

The content for LATE BREAKING CLINICAL SCIENCE abstracts should include:

i. Summary of objectives
ii. Methods
iii. Endpoints

Please use the Late Breaking Clinical Science (LBCS) submission link (found on the main page of the submission site) to submit an abstract in this area. The abstract submitted by the October 24, 2017 deadline will serve as a placeholder for the final abstract.

Final analysis of the study results and conclusions MUST be submitted to Susie Newton (susie.newton@ishlt.org) at the ISHLT headquarters by March 14, 2018. Failure to submit this data by the deadline may result in the withdrawal of the abstract from the program. This analysis will be seen only by a closed panel to ensure complete confidentiality of the results prior to presentation. The program committee chair in consultation with the program committee reserves the final decision regarding scheduling of Late Breaking Clinical Science presentations. An invitation to give a presentation based on a submitted abstract cannot be withdrawn simply because the results do not conform to expectations.

NOTE:
If you wish to have a revised version of your abstract with more detailed study findings published in the abstract supplement to the JHLT, ISHLT MUST receive a revised version of the abstract reflecting the more detailed findings NO LATER THAN January 26, 2018.

SUBMIT AN ABSTRACT: ishlt.org/meetings/abstracts.asp
1. All abstracts must be submitted online at: http://ishlt.org/meetings/abstracts.asp

   Submitting authors will be able to access complete submission instructions and guidelines, including character, image, table and/or graphic limits, via the online submission site.

2. The person indicated as presenting author during abstract submission will be the sole point of contact for information regarding the submission and is responsible for notifying all co-authors regarding the outcome of the abstract submission and any changes to the program, as corresponded by the ISHLT, in a timely manner.

3. Accepted abstracts submitted in the General Abstracts or Late Breaking Clinical Trials areas will be published in the 2018 April Supplement of the Journal of Heart and Lung Transplantation. Case Reports submitted in the Junior Faculty Clinical Case Reports area and accepted for oral presentation will be published in the Journal of Heart and Lung Transplantation. Case Reports submitted in the Junior Faculty Clinical Case Reports area and accepted for poster presentation will NOT be published in the Journal of Heart and Lung Transplantation. Accepted abstracts will be published exactly as submitted, so all content and author information should be reviewed carefully before submission.

4. Previous Publication of Abstracts: Research based on an accepted abstract may not be presented if the abstract is published as an article prior to April 11, 2018.
5 Revisions of a submitted abstract can be made up until the submission deadline of **October 24, 2017, 11:59 PM EDT**. After this deadline, the submission site will close and no changes to the abstract, including the author information, can be made.

6 Submission of an abstract signifies that the abstract author(s) have given permission for the abstract to be **reproduced in print** in the *Journal of Heart and Lung Transplantation* and in digital formats of ISHLT’s choosing for distribution and/or sale by ISHLT.

7 Acceptance of an invitation to give a presentation based on a submitted abstract signifies that the presenter has given permission for the presentation to be **recorded in digital formats** of ISHLT’s choosing for distribution and/or sale by ISHLT.

8 Any abstract author who accepts an invitation to give a presentation based on a submitted abstract agrees to present the data described in the abstract and may not present data not described in the abstract. Any presenter who does not present the data described in the abstract and/or declines the presentation invitation without arranging for the presentation to be given by an abstract co-author (pending approval of ISHLT), will be appropriately sanctioned from future participation in ISHLT meetings by the Society’s Board of Directors.

9 **Informed Consent**: Submission of an abstract signifies that the author(s) agree and confirm that their study involving human subjects adheres to the principles of the:

- Declaration of Helsinki of the World Medical Association
- ISHLT Statement on Transplant Ethics
Compliance with Declaration of Istanbul: Submission of an abstract signifies that the author(s) agree and confirm that their study involving human subjects adheres to the principles of the:

- Declaration of Istanbul
- ISHLT Statement on Transplant Ethics

IMPORTANT: Due to ongoing concerns about compliance with the Declaration of Istanbul and the ISHLT Statement on Transplant Ethics, abstracts related to transplantation and involving either organs or tissue from human donors in China will not be accepted for consideration to the 2018 Annual Meeting. This policy will be reviewed on an annual basis.

Use of Animals: Submission of an abstract signifies that the author(s) agree and confirm that their study involving the use of animals conforms fully within current NIH, EU or analogous national guidelines for the care and use of animals.

Use of Institutional Names and Commercial Trade Names: For purposes of blind scoring, institutional names must be omitted whenever possible in the title and body of the abstract. Authors are requested to avoid the use of commercially branded names of medications or devices. If a specific medication/device is only identifiable by its trade name, then this should appear in 3 brackets after a generic description of the medication/device.
13 **Content Validity and Fair Balance:** Authors are required to prepare fair and balanced presentations that are objective and scientifically rigorous. All recommendations involving clinical medicine must be based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients. All scientific research referred to, reported or used in support or justification of a patient care recommendation must conform to the generally accepted standards of experimental design, data collection and analysis.

14 **Use of Generic vs. Trade Names:** Abstracts must use scientific or generic names when referring to products. Should it be necessary to use a trade name, then the trade names of all similar products or those within a class must be used.

15 **Commercial Influence:** Presenters of research based on accepted abstracts are not permitted to receive any travel, hotel or registration stipends or other financial assistance related to the ISHLT 2018 Annual Meeting from any company whose products or services are discussed in the presentation. Presenters of research based on accepted abstracts may not receive direct input regarding the content of the presentation from any company whose products or services are discussed in the presentation.

16 **Rules for Employees of Commercial Interests:** Employees, owners and patent holders of a commercial interest are generally not permitted to serve as the first author, presenting author, senior author or primary author of an abstract. In rare circumstances where the work does not involve any academic
collaborators, exceptions to this policy MAY be considered on a case by case basis. After all abstracts have been selected, ISHLT will initiate this process by communicating with the primary author of any abstracts which list an industry employee, owner or patent holder as first author, presenting author, senior author or primary author of an abstract.

17 Conflict of Interest Disclosure: Disclosure of all relevant financial relationships is required by all abstract authors. Full and complete disclosure for EVERY author must be submitted with the abstract. **It is the responsibility of the individual submitting the abstract to obtain and provide complete and accurate disclosure information for each author listed on an abstract. Each individual author is responsible for the accuracy and completeness of the disclosure information submitted on his/her behalf.**

If no relevant financial relationships exist for a given author, this must be stated. Failure to provide complete disclosure information will result in disqualification from participation in the educational activity. This requirement is intended neither to imply any impropriety of such relationships nor to prejudice any individual presenter or author. It is merely to identify such relationships through full disclosure and to allow ISHLT to assess and resolve potential influences on the educational activity prior to the planning and implementation of an educational activity.
Financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria for promotional speakers’ bureau, ownership interest (e.g., stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities from which remuneration is received, or expected. ACCME considers relationships of the person involved in the CME activity to include financial relationships of a spouse or partner. The ACCME has not set a minimum dollar amount for relationships to be significant. Inherent in any amount is the incentive to maintain or increase the value of the relationship.

With respect to personal financial relationships, contracted research includes research funding where the institution gets the grant and manages the funds and the person is the principal or named investigator on the grant.

Circumstances create a conflict of interest when an individual has an opportunity to affect CME content about products or services of a commercial interest with which he/she has a financial relationship. The ACCME considers financial relationships to create actual conflicts of interest in CME when individuals have both a financial relationship with a commercial interest and the opportunity to affect the content of CME about the products or services of that commercial interest. The ACCME considers “content of CME about the products or services of that commercial interest” to include content about specific agents/devices, but not necessarily about the class of agents/devices, and not necessarily content about the whole disease class in which those agents/devices are used. With respect to financial relationships with commercial interests, when a person divests themselves of a relationship it is immediately not relevant to conflicts of interest but it must be disclosed to the learners for 12 months.

A commercial interest is any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients. The ACCME does not consider government agencies or providers of clinical service directly to patients to be commercial interests.

Abstract Reviewers, Board Members, Committee Members, Scientific Council Operating Board Members and Workforce Members, Taskforce Participants, Authors, and Guidelines Developers are not permitted to receive any direct remuneration or gifts from any commercial entities for any activity in which they are an official representative or a participant on behalf of the Society, nor should they be subject to direct input from a commercial supporter regarding any such activity.
Abstract Review

After the submission deadline, completed abstracts will be peer reviewed. Incomplete abstracts cannot be processed and will not be reviewed. To ensure the integrity of the review process, revisions will not be accepted after the submission deadline — no exceptions. All abstracts will be blinded for review, i.e. reviewed without knowledge of the author(s), institution(s) or disclosure information; therefore, as indicated in the above policies, abstract content should not include the authors, institution information or commercial trade names.

Notification of Acceptance or Rejection

Presenting authors of all submitted abstracts will receive a status notification of acceptance or rejection no later than December 20, 2017.

On January 8, 2018, presenting authors of all accepted abstracts will receive a presentation invitation including presentation date, session assignment and format (oral, mini oral or poster presentation).

All presentations must be confirmed by January 26, 2018.

Withdrawals

Withdrawal of an abstract from the program should occur only in exceptional circumstances, as withdrawal of an accepted abstract deprives another team of investigators of the valued opportunity to present. The presenting author of an accepted abstract may withdraw their abstract by following the appropriate link in the presentation invitation. All withdrawals must include the reason for withdrawal and the presenting author must confirm that the decision was made collectively by all co-authors.

Withdrawal deadline: January 26, 2018

ISHLT reserves the right to withdraw abstracts that are in violation of the Society’s policies and guidelines outlined in this document.
Philip K. Caves Award

Nursing, Health Science, and Allied Health Excellence in Research Award

Early Career Scientist Award in Transplantation

Junior Faculty Clinical Case Dilemmas in Thoracic Transplantation Best Presentation Award
PHILIP K. CAVES AWARD

This award is named after the clinician who developed and pioneered the technique of transvenous endomyocardial biopsy to assess for rejection after cardiac transplantation. Established in 1982 to encourage and reward original high quality research performed by trainees, residents, fellows and graduate students, this $1,000 award is bestowed annually on the trainee/resident/fellow/student whose oral presentation is judged to be the best at the Philip K. Caves Award Session at the Annual Scientific Meeting. The online submission process includes an area to indicate that you wish to have your abstract considered for this award.

Eligibility Requirements:

- Applicant must be a Student/Resident/Fellow/Scientist in training
- Applicant must be first author and presenter
- Applicant must be a current ISHLT member or be working under a current ISHLT member
- Applicant must not have previously won this award
NURSING, HEALTH SCIENCE AND ALLIED HEALTH EXCELLENCE IN RESEARCH AWARD

This award was established in 2005 to recognize excellence in Nursing, Health Science and Allied Health research and to encourage original investigation and professional excellence in the preparation of scientific papers. This award honors an outstanding contribution by a nurse, pharmacist, social scientist, or other allied health professional whose work makes an important contribution to the field. This $1,000 award is bestowed annually on the nurse, pharmacist, social scientist, or other allied health professional whose oral presentation is judged to be the best at the Annual Scientific Meeting. The online submission process includes an area to indicate that you wish to have your abstract considered for this award.

Eligibility Requirements:

• Applicant must be a nurse, pharmacist, social scientist, or other allied health professional
• Applicant must be first author and presenter
• Applicant must be a current ISHLT member
• Applicant must not have previously won this award
This Basic Science award aims to recognize an excellent abstract in the field of basic and translational science with the goal of encouraging scientists in the early stages of their careers to submit their work for presentation at the ISHLT Annual meeting. Five finalists will be selected to present their abstracts during a session at the meeting, and the Annual Meeting registration fee will be waived for these finalists. The winner will receive $1,000 and complimentary membership to ISHLT for the remainder of the year, and the winner will be announced during the Awards Presentations in the final Plenary Session. The winner must attend this session in person to receive the award. The online abstract submission process includes an area to indicate that you wish to have your abstract considered for this award.

Eligibility Requirements:

- Applicant must be a trainee scientist/medical student not holding a medical degree, nurse, or pharmacist
- Applicant must NOT be a post-graduate clinician/trainee and/or hold a faculty position
- Applicant must be first author and presenter
- Applicant must submit their abstract into one of the Basic Science and Translational Research categories during abstract submission
- ISHLT membership is not required for the applicant or chief
- Applicant must not have previously won this award
To recognize the outstanding contributions by junior faculty and trainees, the ISHLT Junior Faculty and Trainees Council sponsors a session each year at the Annual Meeting entitled, Junior Faculty Clinical Case Dilemmas in Thoracic Transplantation: The Best of the Best. Cases are submitted by junior faculty and trainees using the specific JFCCR online abstract submission link, and the top scoring case reports are selected for presentation in this session. Expert senior clinicians are invited to discuss the intricacies of these cases and share clinical pearls. At the conclusion of the session, the best case presentation is selected by a panel of judges and the presenter is awarded complimentary registration to the next ISHLT Annual Meeting.
ISHLT offers the opportunity for eligible presenting authors to apply for a $1,000 Annual Meeting Travel Grant to attend the 2018 Annual Meeting if their work is selected for oral or mini oral presentation.

The eligible applicant must be a current member of ISHLT or, if in training, must be in training under a current member of ISHLT.

Eligible candidates must come from one of the following groups:

- **SCIENTISTS (NON-CLINICAL)** who are working in a University or equivalent research institution and who are not appointed to a tenured track.

- **NURSES, SOCIAL SCIENTISTS, ALLIED HEALTH PROFESSIONALS AND PHARMACISTS**

- **CLINICAL FELLOWS** who are undergoing their training in geographic areas outside North America, Western Europe, Australia and Japan.

A link to the travel grant application form will be included in oral and mini oral presentation invitations sent on January 8, 2018.
Submission or acceptance of an abstract does not register you or ensure hotel accommodations for the Annual Meeting. All presenting authors of abstract research are required to register and pay the appropriate registration fees and arrange their own hotel accommodations. Scheduled abstract sessions and presentation times will not be changed to accommodate travel schedules.
Registration Fees

The registration fee includes admittance into Symposia, Plenary Sessions, Oral Sessions, Mini Oral Sessions, Poster Sessions and the Exhibit Hall. It also includes coffee breaks each day, the Exhibit Hall Opening Reception and wine and cheese receptions in the poster hall.

FOR BUDGETING PURPOSES, WE HAVE INCLUDED THE 2017 ADVANCE REGISTRATION FEES (BELOW) TO USE AS A MINIMUM GUIDELINE.

2017 ADVANCE REGISTRATION FEES

| Industry Member            | $1020 |
| Industry Non-Member        | $1355 |
| Physician/Surgeon Member   | $ 795 |
| Physician/Surgeon Non-Member| $1130 |
| Allied Health/Non-Physician|  $465 |
| Student/Trainee Member     | $ 355 |
| Student/Trainee Non-Member | $ 520 |

PLEASE NOTE: ACTUAL FEES WILL BE POSTED IN THE ISHLT 2018 PRELIMINARY PROGRAM IN OCTOBER AND WILL INCLUDE VAT TAX.

Hotel Reservations

ISHLT will arrange for discounted rates at various local hotels near The Acropolis Congress Centre. To receive the ISHLT group rate, you must make hotel reservations using the official reservation link which will be published in the ISHLT 2018 Preliminary Program available in October.

CE Accreditation:

This meeting will be ACCME, ACPE, ANCC and ABTC accredited.

Details will be provided in the ISHLT 2018 Preliminary Program available in October.
