2026 HFSA/ISHLT Heart and Lung Transplant Series

HFSA/ and ISHLT Heart & Lung Transplant Series
ISHLT and HFSA Seminars Description

The Heart Failure Society of America (HFSA) and International Society for Heart and Lung Transplantation (ISHLT) are pleased to offer a free, five-part seminar series for nurses and allied health professionals involved in advanced heart failure and transplant care. Physicians and other members of the multidisciplinary team may also benefit.

This practical series explores the transplant journey across heart and lung programs, including heart transplant care from evaluation through post-transplant management, lung transplant referral and evaluation pathways, and the evolving roles of advanced practice providers (APPs) in transplant programs. Sessions focus on real-world workflows, team-based care, and strategies to improve patient outcomes and continuity across the transplant lifecycle.

Seminars:

- *The Journey of a Heart Transplant Patient*
- *The Art and Science of Lung Transplantation Evaluation*
- *The Art and Science of Lung Transplantation Referral*
- *The Art and Science of Lung Transplantation Remote Monitoring*
- *Advanced Practice Provider (APP) Roles in Heart and Lung Transplantation*

Target Audience
Nurses and allied health professionals involved in advanced heart failure and transplant care. Physicians and other members of the multidisciplinary care team may also find this content valuable.
